Toray to Bring New Waterless Offset Plate Technology to Labelexpo Europe 2019

Toray will be bringing new water-washable waterless offset plates to its exhibit at Labelexpo Europe 2019, scheduled for 24 to 27 September in Brussels. Toray will be located in Hall 11, Booth number D02, at the show.

In addition to learning about the benefits of waterless offset printing, visitors to the Toray booth will also learn about Toray's new line of chemistry free, water-washable plates, **IMPRIMA LJ** for label printers. These water washable plates save costs and offer greater environmental benefits for waterless offset printers. **IMPRIMA LJ** are water-washable plates, and they do not require in the developing process and can be processed in most available waterless processors. **IMPRIMA LJ** does not require post-baking. This makes these plates easy to insert into any offset workflow and results in low-cost processing. Other benefits of these new plates include:

- Stable dot reproduction
- Resolution 2400/2540 dpi, AM resolution 1–99% at 300 lpi (120 l/cm), FM screening 1–99% Hybrid screening: 1–99%
- High ink coverage
- Up to 3 hours daylight resistance under standard safe-light conditions
- Long shelf life, suitable for archiving
- Compatible with all waterless inks, UV and Oil based
- UV compatible
- Resolution 300 lpi
- Water washable

24 - 27 September • Brussels
